## ABOUT ME

I'm Jai, pursuing a Bachelor's in Technology in Computer Science from GGSIPU. I am a highly motivated tech enthusiast with a strong passion for coding, particularly using the MERN stack. I have significant knowledge of Data Structures and Algorithms and can efficiently code in Java.

I participated in Smart India Hackathon (SIH), where I cleared the internal round, and in CodeZen 2025, where my team secured 5th place among 3,000+ applicants. I am capable of working both independently and as part of a team, adapting to any situation as required.

## PROJECTS

### Using MERN

Creating Dimension

### Portal to buy notes

The project on which i am most proud of because I have done it alone, integrated almost every concept that I have learnt during MERN stack development learning period. Integrated User authentication& authorisation, used razorpay api to add payment gateway, sendgrid mail to send verification otp's and welcome mail, chatbot to resolve student query.

### Generative Ai

Chatbot&content  
generator

### Gemini Api

Use google Gemini API and system prompt to generate content

### Using ejs file

Airbnb

### Portal to buy home on rent

Cloned Airbnb like portal using ejs files for frontend where guest can buy homes on rent and host can upload pictures and information about the home.
